

To Whom It May Concern:

On at least 4 different occasions, I have received unsolicited, pre-recorded telephone calls from a company that calls itself "Direct Reservation Centers," informing me that I have won a contest that I did not enter (I do not enter contests). Clearly, this is an unsolicited commercial phone call, and, according to Title 47, Chapter 1, Subpart B, Part 64 of The Code of Federal Regulations, using pre-recorded messages to contact residential phone customers is illegal. The company left a "contact" number of 1-800-630-4034.

I am a concerned consumer who wishes to no longer be bothered by such illegal, harassing pre-recorded messages. I appreciate any assistance in this matter.
